# TO THE TRADE

## This List Cancels All Previous Lists

**Packing.** Net F. O. B. our shipping points. Packing charges are extra. We make no charge for packing car lot orders in bulk.

### NOTICE!

We anticipate that there will be many shortages before the Planting Season is over. All prices in this list are subject to change without notice. All quotations are made for immediate acceptance and with the understanding that all orders placed by us with our shippers are placed subject to shipper having stock on hand at the time your order is received. We advise you to place all orders early.

### Prices are subject to change without notice.

Orders are accepted on condition that they shall be void should stock become injured by frost or other causes beyond our control. We cannot be responsible for loss caused by damage or delay in transit. If such damage occurs, it must be reported and entered immediately with your local agent of the transportation company.

 SEE NOTICE INSIDE BACK COVER

**CLAIMS** for error or shortage will be gladly corrected, but we must be notified within **TEN DAYS** after arrival of the stock. Such claims must be based upon an actual check of material at the time shipment arrives and not after it has been sold or lined out. Positively no claims will be allowed unless we (or the shipper) are notified within 10 days of arrival of the shipment.

**Quantity Discount.** Five to 30 plants furnished at the 10 rate, 30 and up at the 100 rate and 250 at the 1,000 rate.

**Guarantee.** Prices do not include any guarantee of growth whatever.

**Terms.** All accounts are due and payable 30 days from date of invoice. Cash, security, or satisfactory Trade References will be required from unknown parties. Interest at 6% will be charged upon all past due accounts. Cash discounts: 2% 10 days from date of invoice.

Where quantity ordered is of sufficient amount we can arrange for shipment by motor freight at prevailing rates. Our favorable locations make it advantageous for our customers to come with their trucks and take away their purchases.

### OUR SERVICE

We always use the greatest care in placing orders for material where we believe the customer's interests will be best served as regards transportation, etc. Sometimes we receive orders for material of which we are either sold out or do not list. In such cases we fill the order, if possible, from the nearest source of dependable stock. This service, we believe, means much to our customers, especially during the busy planting seasons.

### JAPANESE BEETLE INSPECTION

All plants shipped outside the Japanese beetle quarantined area are accompanied with a Japanese beetle certificate. All balled and burlapped plants are shipped from DDT treated soil. We can supply such certificate on all types of deciduous stock. We can supply these Evergreens only with such certification; Arborvitae in variety, Taxus in variety, and Canada Hemlock.

## BROAD LEAFED EVERGREENS

### DAPHNE CNEORUM

#### For Easter and Mother's Day Forcing

Florists find Daphne a profitable forcing item. All of our Daphne is the same fine heavy type as here shown, both for forcing in the greenhouses or for garden use. This Daphne we offer is grown by the Adams Nursery and is shipped from and invoiced by that firm. Can be shipped by express at any time during the winter. Our shipper advises that shipments of Daphne handle equally well for forcing if shipped bare root, instead of in Cloverset Pots, where distant shipping point would seem to make this method more desirable. In case you order bare rooted material we suggest you be very careful to pot the stock immediately and allow the plants time to establish themselves in moderately cool temperature. Price for bare rooted plants is 10 cents less than potted plant prices.

	Up to 25	25 to 99	100 to 249	250 or more

**HYBRID BLUEBERRIES**

We have a fine supply of this popular item, both in heavy plants potted in paper pots and dormant rooted from the field. We have all grades from liners to large 2-3 ft. plants balled and burlaped. If interested please write us for our list of varieties and prices.

**JOIN THE A. A. N.**

To all our customers who are members of the American Association of Nurserymen, it is not necessary to call attention to the fine service being rendered by that organization to our entire industry. But to you who are not members, let us say that you are missing a service which is worth many times its cost. You should belong and get this service for your own benefit. We hope that all nurserymen, who have not already done so, will send in their request for an application blank to Richard P. White, Secretary, American Association of Nurserymen, Room 636 Southern Building, Washington 5, D. C. (or if you prefer you may send this request to our office).

**NEW WEIGELA, BRISTOL RUBY**

(Improved Eva Rathke) Patent No. 492

The best Red Weigela grown, flowers throughout Summer and Fall. Originated by Mr. Cumming of Bristol Nurseries. A better Eva Rathke has long been needed—Bristol Ruby is just that. Rich green foliage, flowers soft ruby-red shading to garnet crimson. Flowers well from old wood and requires little pruning. Good reports from Vermont and other cold regions fully substantiate our own estimate of its hardiness.

## Wholesale prices to the trade:

	Dozen rate each	100 rate each
Bristol Ruby 15 to 18 in.....	\$ .60	\$ .50
18 to 24 in.....	.83	.70
2 to 3 ft.....	1.25	1.00
3 to 4 ft.....	1.40	1.25

Also, we offer rooted cuttings for lining out (April 1949 shipment) at \$15.00 per 100, \$150.00 per 1,000.

**APPLES—TRANSPLANTED TREES**

We have a good assortment of Transplanted, well headed trees 5 to 8 years old in good assortment of varieties, caliperizing from 1 inch to 3½ inches. Owner will dig to order. Customer will have to call for these trees. Write for prices.

## PERENNIALS

### Two Good Perennials

#### GALIUM VERUM

Galium is a good item for Florists. The dainty sprays of yellow flowers make a fine filler for decorative work.

\$25.00 per 100

#### LAVENDER MIST

*(Thalictrum rochambrunianum)*

This variety is unexcelled for cut flower work. The mist-like lavender sprays are most desirable.

\$25.00 per 100

### HARDY CHRYSANTHEMUMS

Except in the most Northern part of our territory, we wish to call to your attention the value of HARDY CHRYSANTHEMUMS. The earlier and more dwarf varieties give an abundance of flowers of a good color range. These are followed by the vivid colorings of the Korean Hybrids originated by Bristol Nurseries. These superb varieties will flower from September 1 to October 20, depending upon variety. When flowers are scarce these Mums brighten up the garden as nothing else can brighten it at that time of year. In the colder areas and in sections exposed to frost these plants will often start blooming after having been frosted. All in all, there is nothing to equal the Bristol Koreans for Fall flowers. To the Florist, even in areas where early frosts occur, we unhesitatingly recommend Korean Mums as a plant to be grown in frames and sash-houses. This type of Mum as a late Fall cut flower is enthusiastically welcomed by the buying public as it is impossible to duplicate the Korean colors in the greenhouse varieties. We have Florist customers who find these Koreans a welcome addition to their list of Mums. Remember that all Koreans are not Bristol's. Ask for the varieties originated by Bristol Nurseries. There is a reason.

Later on in the season we will mail you Bristol Nurseries' rooted cuttings list of Chrysanthemum introductions for 1949 shipment, a list which will contain some very interesting new varieties.

## NOTICE

*All agreements and contracts are subject to ability of shipper to obtain the necessary manpower to dig and pack material and to priorities on material and transportation which may limit, restrict or make impossible performance thereunder.*

## TO OUR CUSTOMERS

Our office will be open at all hours of the day and night during the busy shipping season to answer phone calls and receive telegrams. This, together with our very fine mail service in Wallingford, enables us to give you the quickest possible service in getting rush orders placed to our various shipping points.

## HINSDALE LEAFMOLD

This fine Leafmold is well recommended for Greenhouse, Lawn and Garden use. It is ideal as a soil conditioner, containing 93% organic matter. Acidity 4.7 to 5.7. Specially good for Azaleas, Rhododendrons, Laurel, Blueberries and Evergreens.
